If you think you have a medical or psychiatric emergency, call [911](tel:911) or go to the nearest hospital.

If you receive emergency care in a non-Plan hospital, call [\(800\) 225-8883](tel:8002258883), [TTY 711](tel:711), as soon as your condition is stabilized so that a Kaiser Permanente physician can access your medical information to discuss your care with the treating physician. Your call to obtain authorization for post-stabilization care may also help protect you from financial responsibility.

For identification purposes only, and possession of this non-transferrable digital membership card or membership pass does not confer any right to services and/or other benefits of enrollment unless you comply with all of the terms and conditions of your health plan coverage agreement.
